SUPERCHARGE YOUR SOC OPERATIONS

Cerberus allows cybersecurity teams to safely navigate the most comprehensive dataset of clear, deep, and dark web sources. Built hand-in-hand with national law enforcement agencies, it has already been used to identify breached customer and supply chain credentials, to understand the pre-attack tactic, techniques, and procedures (TTPs) of cybercriminals, and successfully prevent financially crippling attacks.

IDENTIFY THREAT ACTORS

Explore live and historic dark web data, without putting your employees or infrastructure at risk

SHARE INTELLIGENCE

Securely share data and deconflict targets across multiple investigations with partner agencies

STRENGTHEN YOUR CYBER POSTURE

Defend your assets with insight into threat groups allowing you to take better offensive and defensive action.

ILLUMINATE DEEP AND DARK WEB THREATS AND PREVENT ATTACKS

Build on your team's intelligence with dark web data to identify and defend against criminal groups.

THREAT INTELLIGENCE

Access more than 15 years of indexed data from marketplaces, forums, and leak sites.

COUNTER-RANSOMWARE

Access and search thousands of dark web sites, including over a decade of indexed historic data.

CYBERSECURITY

Identify dark web chatter around your organization, understand your threat posture, and inform incident response investigations.
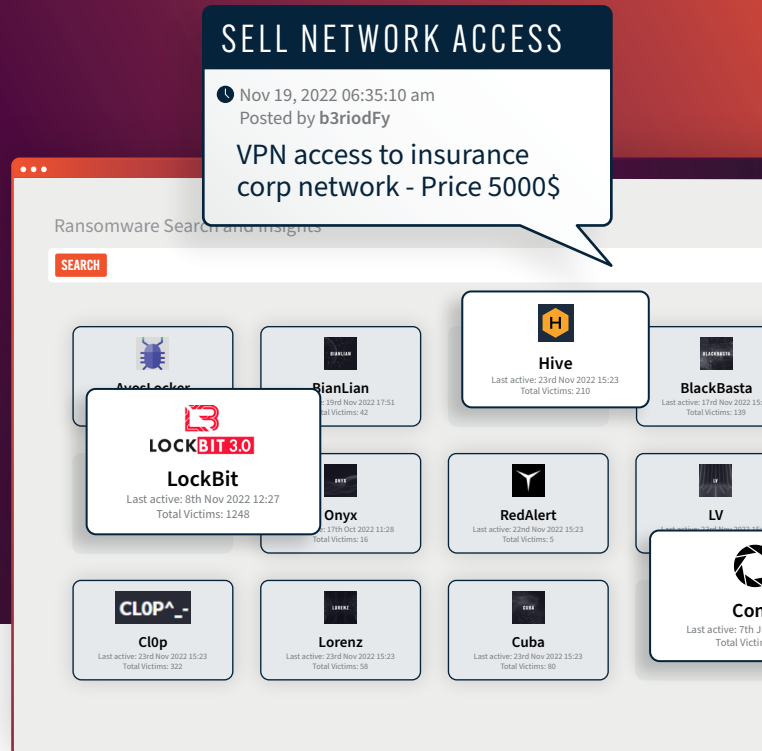

THE WORLD'S MOST POWERFUL DARK WEB INVESTIGATION TOOL.

ORGANIZATIONS AROUND THE WORLD RELY ON CERBERUS EVERY DAY TO DEFEND THEIR PEOPLE, REVENUE, AND SOCIETY FROM HIDDEN CRIMINAL ACTIVITY.

HOW IT WORKS

Cerberus creates a mirror image of the dark web so your teams can safely navigate the most comprehensive dataset of clear, deep, and dark web sources. Investigate live sites or search back through more than a decade of historic data.

Using Cerberus, TI and IR teams can use Cerberus to identify ransomware group trends related to their industry and then easily collate and share this intelligence with their team.

SAVE MANPOWER

Cerberus is intuitive to use and built to save staff time. Best of all, there's no installation required.

SECURE

See what criminals don't want you to see, without putting your team or infrastructure at risk.

PROVEN

Used by leading investigators and security professionals to access specific and actionable insights.

TRUSTED BY THE WORLD'S MOST FORWARD-THINKING LAW ENFORCEMENT AGENCIES, GOVERNMENTS, AND ENTERPRISES
