

DARK WEB MONITORING FOR THE FINANCE INDUSTRY

STAY AHEAD OF RANSOMWARE GROUPS, INSIDER THREATS, AND SUPPLY CHAIN ATTACKS WITH ACTIONABLE PRE-ATTACK INTELLIGENCE.

STOP ATTACKS WITH DARK WEB INTELLIGENCE

Stop attacks before they happen. Searchlight automatically collects dark web intelligence and scans your organization's attributes and IP addresses against over 8 million dark web records - empowering security teams to act on the early warning signals and stop attacks.

99%

OF CISOS IN FINANCIAL SERVICES COMPANIES ARE CONCERNED ABOUT DARK WEB THREATS. HOWEVER, OF THOSE WHO COLLECT DARK WEB DATA, **ONLY 24 PERCENT** ARE USING IT FOR THREAT HUNTING.

SPOT INSIDER THREATS // DARK WEB MONITORING

Spot employees communicating on the dark web, confidential data being leaked on forums, or the telltale sign of network traffic to the dark web.

MONITOR FOR EARLY WARNING SIGNS // AUTOMATED DARK WEB ALERTS

Manage cyber risks for you and your supplier network from a centralized dashboard, including leaked credentials, vulnerabilities, and automated flagging of phishing sites impersonating your domains.

TRACK RANSOMWARE RISKS // DARK WEB INVESTIGATION TOOLS

Access continuously updated ransomware intelligence in our dark web investigation tool and directly access Tor and I2P sites using our dark web virtual machine to look for indicators of breach.

STOP CYBERATTACKS EARLIER

BE THE FIRST TO KNOW WHEN CYBERCRIMINALS ARE ACTIVELY TARGETING YOUR COMPANY, PEOPLE, AND SUPPLY CHAIN ON THE DEEP AND DARK WEB.

HOW IT WORKS

TWO PLATFORMS, ONE GOAL: EARLIER THREAT DETECTION.

DARKIQ DARK WEB MONITORING

Automatically monitor for dark web risks across all your external environments, so you can spot threats earlier and prevent attacks.

MONITOR CLOSED SOURCES

Get alerted when threat actors target your digital environments via our no-install platform or API.

DARK WEB TRAFFIC MONITORING

Get agentless visibility into Tor traffic to and from your network with our proprietary technology.

TAKE ACTION AND REPORT

Focus on imminent threats and create one-click reports to prove your team's impact.

CERBERUS DARK WEB INVESTIGATION

The world's most powerful dark web search and investigation platform. Give your cyber teams access to previously unobtainable live activity and over 15 years of archived dark web data.

INVESTIGATE HIDDEN THREATS

Identify threat actors and groups that are targeting other finance companies.

LIVE AND HISTORIC DATA

Access +15 years of live and deleted data. All data is scanned, and indexed for easy user query & retrieval.

DARK WEB VIRTUAL MACHINE

Explore Tor and I2P onions knowing your identity and network are protected.

TRUSTED BY THE WORLD'S MOST FORWARD-THINKING ENTERPRISES AND CYBER INVESTIGATION TEAMS

GREAT UNIQUE PRODUCT WITH AN HONEST APPROACH AND EASY PEOPLE TO WORK WITH.
