with RU speaking users

SELL NETWORK ACCESS

VPN access to insurance corp
network - price \$5000

GOV ACCESS IN SALE

Huge numbers of passports,
court cases & other docs

UNCOVER CRIMINAL ACTIVITY ON THE DEEP AND DARK WEB.

Gain the operational advantage over cybercriminals. Intercept communications, uncover forums, and extract data that human traffickers, drug cartels, and terrorist groups don't want you to have - before they undermine your operations.

We have to access the dark web in order to gather evidence, the ability to do this using the Stealth Browser is a huge benefit both in terms of resources and peace of mind.

STAY AHEAD OF CRIMINALS WITH COMPREHENSIVE INTELLIGENCE

Gain instant visibility into what's being shared on the dark web, even content that's been deleted. With over 15 years of archived intelligence gathered from dark web marketplaces, forums, and ransomware leak sites.

USER-FRIENDLY DARK WEB TOOLS FOR FASTER INVESTIGATIONS

Access curated and searchable dark web intelligence through a secure and user-friendly platform, enabling proactive threat detection, credential leak monitoring, and early warning on emerging threats.

SECURELY INVESTIGATE THE DARK WEB WITHOUT THE RED TAPE

Our ransomware, marketplace, and vendor dashboards empower investigators of all experience levels to go "incognito", quickly identify emerging threats, and directly access the dark web using our in-browser, dark web virtual machine.

PART OF SEARCHLIGHT'S ALL-IN-ONE EXTERNAL CYBER RISK MANAGEMENT SOLUTION

ASSETNOTE

Attack Surface Management

- Hourly scans across your entire environment
- Alerts on verified exposures, with POC's for every finding
- Zero-day alerts from our research team in product

DARKIQ

Dark Web Monitoring

- Continuous dark web scanning
- Get prioritized alerts focused on your specific attack surface
- Resolve threats quicker with out MITRE ATT&CK® mapping

CERBERUS

Dark Web Investigations

- Identify, preserve, and share dark web evidence with ease
- Securely access Tor and I2P services with our virtual machine
- Set alerts to monitor keywords and actors across the dark web

Uncover and take action on dark web crime

CERBERUS IS USED GLOBALLY TO DEFEND PEOPLE AND COUNTRIES. IT HAS BEEN USED IN SOME OF THE BIGGEST CASES INVOLVING DARK WEB ACTIVITY AND HAS HAD A PROVEN IMPACT IN BRINGING PERPETRATORS TO JUSTICE.

KEY FEATURES

Ransomware Group & Market Dashboards

Access pre-aggregated intelligence on the most active markets and vendors – making it easier to focus on local or mission-specific threats.

Cerberus AI Insights

Automatically turn dense, unstructured dark web discussions into actionable insights - summarizing conversations, categorizing threats, and analyzing sentiment.

Leaked Credential Search

Accelerate investigations and unmask high-risk actors hiding behind online aliases with access to previously hard-to-obtain stolen credential data.

Stealth Browser, Dark Web Virtual Machine

Anonymously investigate I2P and Tor directly from the browser, safe in the knowledge that your identity is protected and malware can't jump to your live network.

Case Management and Activity Alert Tools

Easily identify, preserve and share evidence related to criminal operations with simple case management tools and activity alerts for keywords and high-risk threat actors.

AI-Powered Translation

Understand what criminals are saying using our AI-Powered Translation, optimized for dark web content.

TRUSTED BY GOVERNMENT AGENCIES AND LEADING COMPANIES WORLDWIDE
